

Local Test Box History

Local Test Box 3.0.4 (2026-11-09)

- Integrated EAIWS for Local Test Box 4.20.1
- Integrated pCon.basket online 2.17.1 for Local Test Box
- Integrated pCon.box 3.22 for Local Test Box
- Improved update path detection for existing installations.
- Integrated pCon.update DataClient 1.12 Update 2
- Integrated Toolbox for Local Test Box 3.0.4
- Reworked viewer integration and introduced a cleaner viewer concept.
- Integrated current component versions with the new viewer setup.
- Added support for deleting saved Profile Sets.
- Integrated Crawler configuration and removed the obsolete WorkerConfig.
- Simplified Java integration so EAILS, EAIWS and the GUI use a single runtime setup.
- Adjusted GUI launch handling accordingly.
- Restricted the EAIWS HTTP server to localhost to avoid unnecessary external network access and firewall prompts.Introduced a release checklist for future releases.
- Implemented various bug fixes and stability improvements

Local Test Box 3.0.3 (2026-09-08)

- Integrated pCon.basket online 2.16.3 for Local Test Box
- Changed the product name to “Local Test Box”
- Introduced Profile Sets for saving and loading profile selections, providing greater transparency about the profiles included
- Added options to pause, clear, and open the log externally
- Implemented various bug fixes and stability improvements

Local Test Box 3.0.2 (2026-05-28)

- Integrated EAIWS for Local Test Box 4.19.1

EGR-LTB 3.0.1 (2026-05-19)

- Integrated EAIWS for EGR-LocalTestBox 4.19

- Integrated pCon.basket online 2.16 for EGR-LocalTestBox
- Integrated pCon.box 3.20 for EGR-LocalTestBox

EGR-LTB 3.0 (2026-03-20)

- Integrated EAIWS for EGR-LocalTestBox 4.18.3
- The former PowerShell-based GUI module has been fully replaced with a modern C# GUI, delivered as the new toolbox for EGR-LocalTestBox 3.0.

EGR-LTB 2.5.7 (2025-11-06)

- Integrated EAIWS for EGR-LocalTestBox 4.18.2
- Integrated EAILS for EGR-LocalTestBox 1.3
- Integrated pCon.basket online 2.15 for EGR-LocalTestBox
- Integrated pCon.box 3.18.1 for EGR-LocalTestBox
- Integrated pCon.update DataClient 1.12

EGR-LTB 2.5.6 (2025-05-07)

- The exact versions of EAIWS (4.17), pCon.box (3.17), and pCon.basket online (2.14) used on the production servers are now bundled with the EGR-LocalTestBox. This ensures that test scenarios are executed in an environment identical to the live systems.
- The former PowerShell-based “Reports” module has been fully replaced by a modern C#-based GUI, now utilizing the new Crawler 1.6 under the label “Data Insights”.
- New reports provide more detailed insights into test results.
- Results are now displayed in a clear, structured table layout for improved readability.
- Introduced CSV export functionality to simplify sharing and external analysis.
- A filter function has been added to refine and narrow down results based on criteria.
- Users can now select and compare results from multiple crawl databases, enabling more targeted analysis and comparison of different server versions.
- It is now possible to cancel the crawling process while it is running.
- Numerous bug fixes have been applied throughout the crawling and reporting workflow to enhance stability and reliability.
- Numerous bug fixes in the main application interface and the integrated component installers to improve stability and usability.

EGR-LTB 2.5.5 (2025-02-28)

- GUI Facelift: Refreshed user interface for a modernized look and improved usability.
- Auto-Scroll in Log Window: Automatically scrolls to the latest log entries for better visibility of ongoing operations.

- Enhanced Detection for Zipped OFML Data: Improved recognition and handling of compressed OFML data sets.
- Remember Last Used Path: Automatically persists the last-used path when browsing for catalog profiles.
- Low Disk Space Warning: Displays a warning message if there is insufficient free disk space.
- Clear Cache on Server Version Change: Automatically clears the cache when a new server version is detected to prevent conflicts.
- Improved Logging: Enhanced log messages for better clarity and troubleshooting.
- Improvements for Use of Pre-Release Server Versions: Enhanced support and functionality for testing pre-release server versions.
- Bug Fixes: Addressed various minor issues to improve stability and performance.

EGR-LTB 2.5.4.100 (2024-12-11)

- Integrated EAIWS for EGR-LocalTestBox 4.16.2
- Integrated pCon.basket online 1.13 for EGR-LocalTestBox
- Integrated pCon.box 3.16.2 for EGR-LocalTestBox
- Integrated pCon.update DataClient 1.11 Patch 4
- Updated License Texts

EGR-LTB 2.5.2.100 (2024-08-05)

- Integrated EAIWS for EGR-LocalTestBox 4.15.4

EGR-LTB 2.5.1.100 (2024-06-27)

- Integrated EAIWS for EGR-LocalTestBox 4.15.1
- Integrated pCon.basket online 1.12 for EGR-LocalTestBox
- Integrated pCon.box 3.15.1 for EGR-LocalTestBox
- Integrated pCon.update DataClient 1.11 Patch 3
- Updated License Texts

EGR-LocalTestBox 2.5

EGR-LTB 2.5.0.100 (2023-11-03)

- Integrated EAIWS for EGR-LocalTestBox 4.14.1
- Integrated pCon.basket online 1.11 for EGR-LocalTestBox
- Integrated pCon.box 3.14 for EGR-LocalTestBox
- Integrated Toolbox for EGR-LocalTestBox 2.5
- Integrated pCon.update DataClient 1.11 Patch 2
- Check online for Updates
- Various bugfixes and improvements
- Updated License Texts

EGR-LTB 2.4.5.100 (2023-04-27)

- Integrated EAIWS for EGR.LocalTestBox 4.13

- Integrated pCon.basket online for EGR-LocalTestBox 2.9
- Integrated pCon.box for EGR-LocalTestBox 3.13
