Minimum requirements	
Processor	4 Core (class > 3.4 GHz) (e.g. Intel® Core™ i5)
System Memory	8 GB
Operating System	Microsoft Windows 11
Disc Space	6 GB[1]
Graphics Board	Current model from NVIDIA or AMD 4 GB RAM (8 GB and more for very large/detailed drawings) OpenGL 4.5 support Special CAD cards usually do not offer any advantages.
Display Resolution	1024 x 768 pixels

Licensing Requirement:
Please note that Local Test Box is a licensed software.

Installation Path and Administrative Rights:
Administrative rights may be required if the application is installed under the default directory %ProgramFiles%.
If administrative privileges are not available, we recommend installing Local Test Box in a user-writable location outside of %ProgramFiles% to ensure full functionality.

[1] The required disk space depends of the amount of OFML data to be installed. Besides the disk space of the programs or OFML data itself temporary disk space for the installation files is required.

Further Notes

The application regularly performs checks for updates, necessitating a stable internet connection.

Please note that Microsoft support for Windows 10 ended on October 14, 2025. While the application will continue to run on Windows 10, releases will no longer be supported on this platform. For further details, please visit Microsoft's Lifecycle Policy for Windows 10 Home and Pro.
