1 Order

1.1 Multi Selection of Manufacturers

In the *Order* dialog, it is now possible to select multiple OFML manufacturers at once. In the previous versions, only a single manufacturer or the complete range of manufacturers used in the project could be selected.

This new feature allows you, for example, to order from a corporation that offers several OFML manufacturer catalogs.

The screenshot shows the 'Order' dialog box. At the top left, the title 'Order' is displayed in blue. Below the title, there is a checkbox labeled 'Export all Manufacturers' which is currently unchecked. Underneath, the text 'Select a Manufacturer:' is followed by a list of manufacturer options. Each option consists of a radio button and a text label. The options are: 'Klöber GmbH' (unchecked), 'Sedus office furniture' (checked), 'Sedus seating & conference furniture' (checked), and 'Vitra' (unchecked). The 'Sedus' options are highlighted with a light gray background. At the bottom right of the dialog, there are two buttons: 'Order Data' (blue) and 'Cancel' (white with a gray border).

Edition: Pro / Integration

1.2 Enhanced Order Dialog

The *Order* dialog does now contain the following options:

- *Export Set Articles*: Defines whether set articles are transferred to OEX, OBX and PDF files
- *Attach OBX*: If selected, order will contain an OBX file
- *Attach PDF*: If selected, order will contain a PDF file

Order - Sedus office furniture, Sedus seating & conference furniture

- Order Data**
- Main Address
- Shipping Address
- Billing Address
- Supplier Address
- Delivery Options

Order Data

Order Number *

Order Information

Vendor Number

Client No. *

Condition No.

In addition, there is the new address option *Supplier Address*. This address is used in the order PDF in the header.

1.3 Order PDF

With version 2.10, a PDF based on the selected manufacturers is generated via the *Order* dialog. This order PDF can be downloaded or attached to the OEX order (see 1.2).

The generated PDF does only contain the articles of the manufacturers selected in the manufacturer overview (see 1.1). The prices included in the PDF refer to the project's purchase calculation. Options to control the contents of the order PDF do not exist.

Order - Sedus office furniture, Sedus seating & conference furni

Create and Send PDF ORDERS | pCon.basket Tutorial

Use the option to export offer documents from the pCon.basket and benefit from an efficient and error-free ordering process thanks to time savings, accurate data transfer and automation options. In this video we show you how to do it!

2 Additional Changes and Enhancements

2.1 Report Template – Save Selection as Default

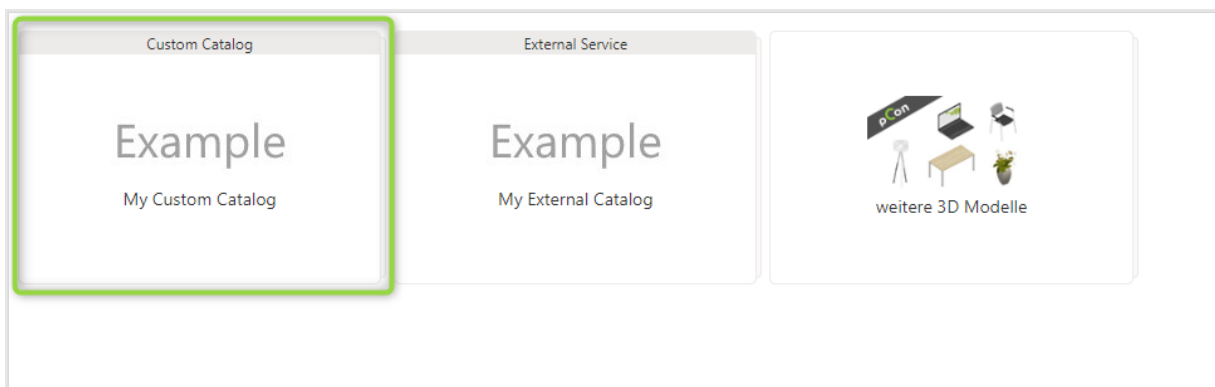

Beginning with version 2.10, the option *Save as Default* does also include the template selected. By clicking this button, the selected template and your template settings will be set the default option for your future projects.

Edition: Pro / CE / Integration

2.2 Highlighting for Custom Catalogs in the Catalog

To better distinguish custom catalogs from the catalogs of OFML manufacturers, the former are highlighted separately in the catalog.

Edition: Pro / Integration

2.3 Enhanced Dashboard: Blog Posts

The dashboard does now contain an overview of blog posts related to the pCon.basket Online. Furthermore, we have added an overview of news about the pCon community.

In the dashboard, the three most recent blog posts of both categories are displayed.

Note: Depending on the application language, the blog posts by the respective sales partners are posted.
