

## Setup of pCon.ui

Please provide the following information, so pCon.ui can be configured according to your needs.

## 1. pCon.login

The available OFML data depends on the pCon.login user account. If you don't have one yet, please create one here https://login.pcon-solutions.com/. Please make sure to use a separate user account for your online solutions instead of a personal one and that the password of this account is not changed in the future. In addition, this user account should be assigned to a separate pCon.login channel "Online", because some manufacturers provide special data sets for online solutions. The channel ensures that the responsible persons assign the correct data to your data approval requests.

If you don't have a channel "Online" yet, you can find further information on how to create channels in pCon.login in the <u>FAQs of pCon.login</u> and the <u>pCon.login Manual</u>.

≡ pCon.login							
බ Home	Channels						
User	Channels are there to assign distinct manufacturer catalogs and pCon applications to different departments of your organization. $\mathbb{O}$						
요 Account					Q	Ŧ	
Organization	□ Channel \\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	Description 1	Administrators	User Groups	U		
🖪 Account	Online	Online Solution	Administrators ×	Online ×	0	ep ::::	
at: Users	Standard		Administrators	Administrators « Standard Users »	0		
불 User groups							
Manufacturer catalogs							
Applications							
떂 Channels							
🖉 Licenses							

If you have any questions about this, please feel free to contact support@easterngraphics.com.

Once you have a proper pCon.login user account, please go <u>here</u> using a private tab. Then log in, generate a refresh token and copy it to the request form. If generating the token doesn't work, you can fill in the complete pCon.login credentials with username and password.

The completely filled form needs to be attached to your order of pCon.cloud with pCon.ui.

## 2. Configuration

Your pCon.ui is configurable. The following parameters will affect all of your created links. Some of the settings can be overwritten later by URL-parameters, see documentation of pCon.ui. If there is a default value, it is marked bold.

Parameter	Value
Default language of the user interface	da, de, en, es, fr, it, nl, pt, sv, pl, cs, tr, ro
Default language of ofml data	Use interface language, da, de, en, es, fr, it, nl, pt, sv, pl, cs, tr, ro

Fallback languages data	da, de, en, es, fr, it, nl, pt, sv, pl, cs, tr, ro
Visibility of prices	Show, hide
Currency*	Currency code, e.g. "EUR"
Currency position	Left, <b>right</b>
Type of price	Net (excl. VAT), gross (incl. VAT)
Country code for VAT*	Country code according to ISO 3166-1 alpha-2 (e.g. DE)
Visibility of breadcrumb/back to catalog navigation header	Show, <b>hide</b>
Show dimensions icon in 3D view	Yes, no
Length Unit	"Millimeter", "Centimeter", "Inch", "Feet", <b>"Meter"</b> , "Kilometer"
Show iso view icon in 3D view	Yes, no
Show snapshot icon in 3D view	Yes, no
Show full screen icon in 3D view	Yes, no
Show button to toggle OAP interactors in 3D view	Yes, no
Show button to set perspective to front	Yes, no
Show button to set perspective to top	Yes, no
Show button to set perspective to left	Yes, no
Show button to set perspective to right	Yes, no
Background color of 3D view	White, grey radiant, black
Lock article at center of 3D view	Yes, no
Hide description	Yes, no
Hide manufacturer name	Yes, no
Hide series name	Yes, no
Hide article number	Yes, no
Hide article name	Yes, no
Color of highlight text and button	Hex color (default: <b>#147db4</b> )
Enable Metatypes	Yes (recommended), no
Activate PDF Download	Yes, no

Show PDF download in 3D view or below property editor	3D, footer
Show CAD-Downloads in 3D view or below property editor	3D, footer

\* **Note:** If the OFML data does not contain the chosen target currency, the price will be converted. Furthermore, the correct VAT for the target country will be included.

An example with many features activated can be found <u>here</u>.

Please provide the information above for the initial setup via this form. The completely filled form needs to be attached to your order of pCon.cloud with pCon.ui.
